

Wisteria

Wisteria Merlot

California  
Central Coast

Merlot

### The History

This wine was created for the “by the glass program” in restaurant. After researching for the best quality, we selected exclusively this wine to fit the broad market. We contract this wine once a year from the same winery and produce enough to share in exclusivity for Wine-Street, our retail partner.

Merlot has gotten a bad rap as of late but there is no denying the wine’s appeal. Packed with deep, dark berry fruit and nuanced hints of cocoa, herb and earth with a soft structure. Its velvety texture makes Merlot instantly appealing and an obvious alternative to similar, more tannic Bordeaux varieties

### Tasting Notes

Bright blackberry and cherry fruit balanced with toasty American Oak.
